The Pope’s intentions in images.

Since 2016, the Pope Video project has been launched to help spread the intentions of the Holy Father. Its central element is a monthly video shared via internet, social networks, television, etc. In each video, Francis calls us to mobilize on one of the challenges of humanity and asks us to join him in his prayer.

A great speaker.

The Holy Father entrusts each month to the Pope’s Worldwide Prayer Network (Apostleship of Prayer) the task of spreading his prayer intentions to the world. It is therefore this institution that leads the project www.thepopevideo.org.

We need your help.

The Pope’s Worldwide Prayer Network cannot face this great work by itself. We need the material help of people and institutions who want to collaborate with Pope Francis in his work.

If you are interested in collaborating with www.thepopevideo.org contact us through our website.

WE NEED YOU!

The Pope takes his voice and his image to all the corners of the world.

Produced in 10 languages, ranging from Spanish, English, French, and even Arabic to Chinese, videos have achieved a huge resonance, reaching millions of views. In addition, they have been shared in the news by major media around the world.

A unique project.

It is the first time that the Pope addresses, in a regular audiovisual format, to Christians, and people of other religious traditions or convictions, from all over the world. The advertising format and its impressive and careful images only reinforce the power of the Pope’s words.
